SAY YES TO HEALTHY SNACKING

As a family-owned company specializing in healthy desserts, we honor tradition and quality. That's why we initially revived the Nachfolger brand of chocolates, founded in 1888, and in the spirit of its tradition, we continue to develop new brands and honestly handcraft luxury confectionery using premium ingredients. We believe our customers will appreciate our philosophy of honest chocolate without substitutes. Chocolate that is meant to delight, uplift and bring more energy, good mood and health to your life.

We want our products to taste fantastic, combining ingredients of different kinds and discovering new delicious flavour combinations. But we're even happier when these ingredients are also good for your health. We sweeten our Aluna chocolate with great coconut sugar and therefore it contains no white sugar. Our vision is to work with superfoods as much as possible, bringing you not only the perfect taste to delight your senses, but also a hefty dose of health.

Superfood = particularly nutritionally rich food, full of vitamins, minerals, fiber, antioxidants and nutrients of plant origin (e.g.: almonds, acai, cocoa, goji, blueberries, moringa)
